DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on 12/18/03 disclaiming the terminal portion of any patent granted on this application has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17-19, and 37-44 are rejected under 35 U.S.C. 102(b) as being anticipated by Zeckendorf et al (US 2,698,973).

Zeckendorf teaches multistory building structure comprising at least one multistory module comprising a first level including multiple dwelling units (figs. 5 and 6) and extending between one sidewall 12 or 26 of the module and an opposite sidewall, a second level of the module including plural dwelling units thereon and occupying at least a portion of the second level, a third level of the module including multiple dwelling units disposed thereon, a plurality of corridors surrounding the building module and providing pathway and access by elevators 46, stairways 47 31 and a ground level G.

Allowable Subject Matter

Claim 45 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-16, and 20-36 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 17-19, and 37-44 have been considered but are moot in view of the new ground(s) of rejection.
